

SecureTrust™ PCI Manager Quick Start Guide

You've been upgraded! To access your upgraded SecureTrust PCI Manager account, please visit and bookmark <https://portal.securetrust.com>. To make the upgrade process easy for you, you can use the same username and password that you've used historically. If you've forgotten your username or password, simply click 'username' or 'password' at the bottom of your screen to receive a reset email.

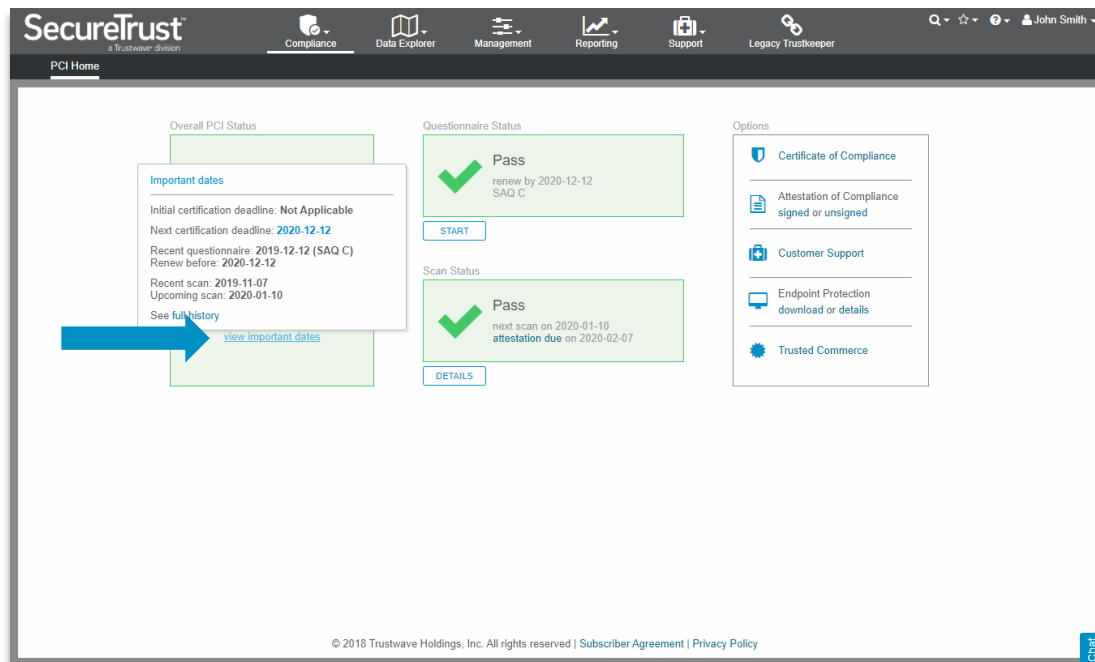

The image shows a screenshot of the SecureTrust login interface. At the top right, there is a language selection dropdown menu set to "English (US)". In the center, the SecureTrust logo is displayed, consisting of the word "SecureTrust" in blue and green, with "a Trustwave® division" in smaller text below it. Below the logo, there are two input fields: "User Name" and "Password". The "User Name" field contains a vertical cursor. Below the "Password" field is a blue "LOG IN" button. At the bottom of the form, there is a link that reads "I forgot my [user name](#) [password](#)".

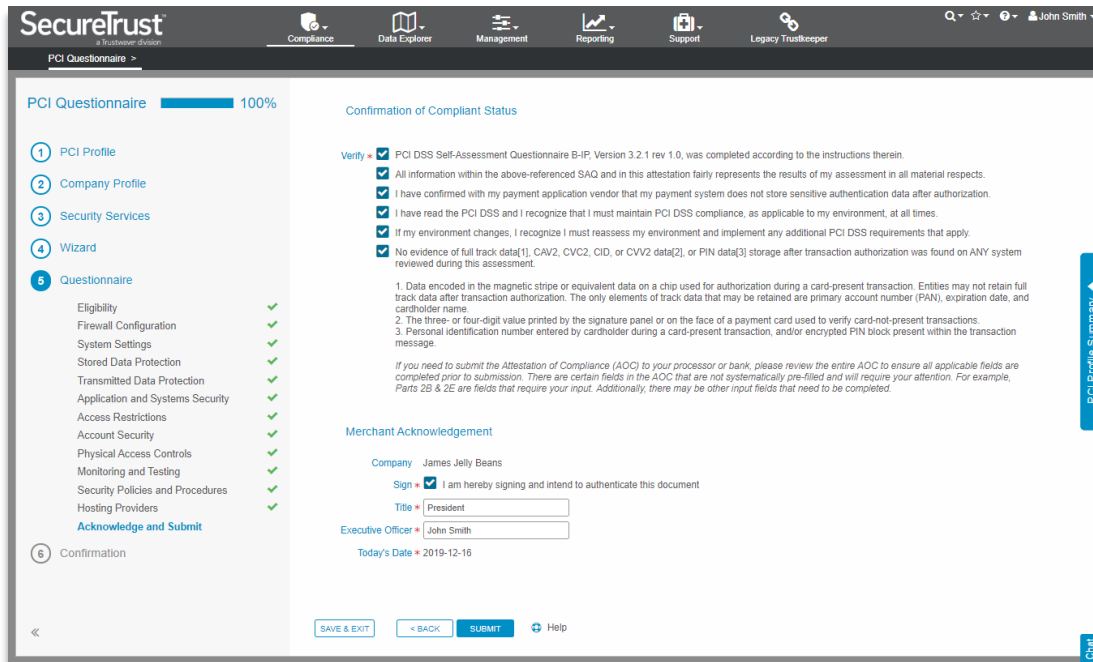

Once logged in, you will be taken to the *PCI Home* screen where you will be able to confirm your Overall PCI Status, Questionnaire Status and Scan Status. If your overall PCI Status is compliant, you can download copies of your Certificate of Compliance and Attestation of Compliance under 'Options' on the right-hand-side of the screen.

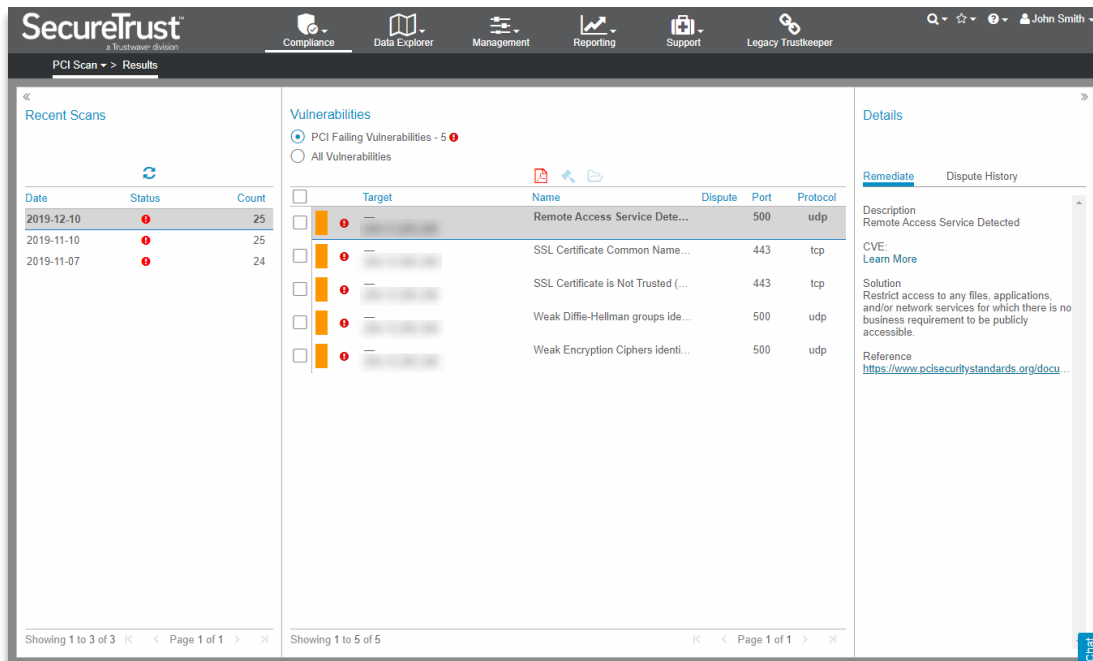

To view important certification dates and deadlines, click on 'view important dates' under Overall PCI Status.

If your questionnaire is non-compliant, incomplete or expired, simply click the 'continue' or 'start' buttons next to the applicable item, to complete your questionnaire workflow.

If your scan status is non-compliant, review your scan results and schedule. Also verify that your scan attestation is current (provided on the *PCI Home* screen).

As always SecureTrust's support team can help with additional program or upgrade questions. For assistance, please call 1-800-363-1621 or email us at support@securetrust.com.
